

Please do not take K-LOVE radio off the air. as a resident in this community, I really appreciate this station. I have two children at home ages 12 and 9. I like the idea of a good wholesome station where I don't have to worry about what the d.j. is saying or the language of the songs I listen to. It is a good thing to have in this day and age, where a mentality of "whatever" is in place. The effect on the community would not be good. WE would have to shut our radio off if K-Love were taken off the air. The effect on my local community would be terrible, we as a people would not be able to be encouraged on a daily basis, nor would we be able to hear a positive message about home, health and family issues. It is clearly in the public interest to keep K-love on the air. We as a community deserve to listen to good positive music, it is our right as a people in this great nation to be able to listen to our religious values, in a non-threatening venue such as k-love. My 9 year old daughter listens to k-love on a nightly basis. When we are in the car together it is good to hear her sing songs of hope and a good future ahead of her. To take this station off the air would be a disgrace to us as a nation of people whose right it is to voice our opinion. Please do not take K-love off the air and replace it with an LPFM broadcaster. Thank you for knowing what is right. Terri Keaton
